

EDTA 2Na  
powder

## EDTA Disodium Parameters and Specifications

Packaging Specifications: 500g/bottle, 25kg/barrel

Appearance: White crystal powder

CAS:6381-92-6

Performance: odorless, easily soluble in water, easy to absorb moisture, stable

PH value at room temperature: 5% The PH value of the aqueous solution is 4-5

Molecular formula:  $C_{10}H_{18}N_2Na_2O_{10}$

Molecular weight: 372.24

Validity period: three years

Storage conditions: sealed and stored in a cool, ventilated warehouse.
